**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 10-11, 13 and 16-35 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action mailed on November 16, 2007.

***Response to Arguments***

7. Applicant's arguments filed on February 21, 2008 have been fully considered but they are not persuasive.

Applicants argue that the use of the fatty alcohols of the cited reference, de Haut, materially changes the claimed composition, because the component is chosen so that the lotion stays on the surface of the web, while applicants' lotion penetrates the web. The arguments are not considered convincing for the following reason(s):

- As applicants recognize the claimed lotion penetrates into the web because of its particle size, see page 3, lines 10-15, and even if the fatty alcohols of the cited reference were included in the claimed lotion, the lotion would still penetrate the web, because the particle size of the emulsion is changed. That is, the use of the fatty alcohols would not materially change the claimed composition, since the particle size

of an emulsion can be altered by physical, e.g., mixing, and/or chemical, e.g., adding a soap, methods<sup>1</sup>. The droplet size is not necessarily dependent on the fatty alcohol and there isn't enough evidence that with the addition of the fatty alcohol of de Haut, the particle size could not be changed, even by the use of physical and/or chemicals method described above.

- It seems clear that the chemical composition of the lotion is not patentably/materially changed by the use of the fatty alcohol. It also seems clear that one of ordinary skill in the art could change the physical properties of the lotion by changing the particle size of it, so the emulsion can penetrate more or less depending of the desired effect.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
